

July 18, 2018

2018 Road Improvement Program

7/18- 7/20 Woodstock and Oxford Avenues-

- Thursday, July 19th at 7:00 AM. The contractor will be grinding for the new concrete shoulder on the east side of Woodstock, from Burlington to Norfolk, moving up to Chicago in the morning. Later that morning the contractor will move to the west side of Oxford starting from Chicago going south to Norfolk and then to Burlington.
- **We will be closing all driveways on the east side of Woodstock from Burlington to Chicago and the west side of Oxford from Chicago to Burlington beginning tomorrow July 19th** to construct the new concrete shoulder. For those of you impacted, please park your cars on the side streets or elsewhere during the construction hours of 7:00 AM to 5:00 PM. Overnight you may park on the opposite side of the street.
- **Woodstock and Oxford will be posted as northbound only streets.** Please have your cars moved before 7:00am. We need to keep cars off the streets during active construction. Those displaced from their driveways are expected to be out of their driveways for a period of 10 – 14 days.
- Residents with special needs may contact the Village and certain allowances will be made for them. Parking restrictions will be lifted on streets impacted by the construction. Village vehicle stickers will need to be displayed on cars parked along the streets.
- We will temporarily make Woodstock and Oxford one-way streets, **northbound only**, during the active street construction. This signage will go in effect before the end of the working day tomorrow, Thursday, July 19th.
- Again, for those of you impacted, please park your cars on the side streets or elsewhere during the construction hours of 7:00 AM to 5:00 PM. Overnight you may park on the opposite side of the street. We need to keep the parked cars off the streets during the active construction.

7/18 - 7/20 Arthur and Tuttle Avenues:

- They have now completed many of the asphalt driveways on Arthur and Tuttle. Those of you with only a partial asphalt driveway can use your driveway for now. The landscaper will return to re-build the remaining brick driveways on Tuttle and Arthur. We also re-opened the brick driveways using temporary gravel so they are usable. If they resume working this week to wrap these up, they will knock on doors to get cars removed as necessary.

We apologize for the brief interruption in the weekly construction updates. The contractor has encountered issues which has prevented them from providing the Village firm schedules. The Village is aware of their issues and will continue to monitor their progress.

If you have any questions please contact me at 224-315-0201 or you can call Public Works at 630-286-4750 between the hours of 7:00 AM to 3:30 PM. After hours, please call 911 in the event of any emergencies.

Have a good weekend.

Bill Sprague
On-Site Engineer
