

March 15, 2019

** Please be advised that the following schedules may change due to weather or other unforeseen circumstances.*

2019 Water Main Replacement Program

The construction of new water main and water services has begun and will continue through June 2019. The streets impacted by our work are as follows:

- The intersection of Park Avenue and Eastern Avenue
- The intersection of Holmes Avenue, Harris Avenue, and Eastern Avenue
- Walker Avenue from Park Avenue south to 55th Street.
- Prospect Avenue from Park Avenue south to 55th Street.
- Harris Avenue from Walker Avenue east to Prospect Avenue.

Week of 3/11:

- The new water main work was completed in the intersections of Park Avenue/Eastern Avenue and Holmes Avenue/Harris Avenue/Eastern Avenue this week. The Contractor also removed the asphalt road material in the future new water main trenches along Harris Avenue, Prospect Avenue, and Walker Avenue.

Week of 3/18:

- On Monday, March 18th Park Avenue and Walker Avenue will be partially closed with a detour to allow the contractor to make a new water main connection in the middle of the intersection. They will install new water main going south on Walker Avenue until approximately 2:30pm.
- On Tuesday, March 19th they will resume installing water main along Harris Avenue between Prospect Avenue and Walker Avenue. Harris Avenue will be closed while this work is ongoing on Tuesday.
- On Wednesday, March 20th through Friday, March 22nd they will be installing water main on Prospect Avenue from Harris Avenue south towards 55th Street. This section of Prospect Avenue will be closed during that water main construction to through traffic.

Week of 3/25:

- The water main construction work along Walker Avenue in front of Walker School (Ridge Avenue to Harris Avenue) will occur during the school's spring break of March 25th through March 29th. During this work Walker Avenue will be closed between Harris Avenue and Ridge Avenue.

Due to the planned construction this year on Walker Avenue and Prospect Avenue, a detour route has been developed from Park Avenue to 55th Street. The contractors will post this detour route on Monday, March 18th to be used by vehicle traffic during this entire construction season from Park Avenue, south to Eastern Avenue, then south on Holmes Avenue to 55th Street. The same detour route will be identified for northbound traffic into downtown and the Metra Station. We encourage all residents to use Holmes and Eastern to stay out of the active construction areas. Local road closures will be in place during construction along the streets we are working on each work day from 7:00 AM to 5:00 PM.

A separate and different contract, the 2019 Road Improvement Program, will construct the new streets, driveway aprons and parkway restoration along these same streets and others, but the Road Program is not to begin until mid-June.

Your cooperation during construction is greatly appreciated. Typical construction work hours will be 7:00 AM to 5:00 PM on Monday through Friday. Saturday work may be approved on a case by case basis by the Village depending on weather and progress. We will notify the bus company and the trash company of our active construction zones and we will coordinate with them to get your trash picked up on Tuesdays. We need dry weather conditions for our schedule to be met. Rainy days will likely push the schedule back.

Residents interested in updates via email should email pnickell@clarendonhills.us and state they would like to be added to the contact list. Please note the 2019 Road Improvement Program and Water Main Replacement Program web page has been setup at www.clarendonhills.us/SSA2019.

If you have any questions please contact our on-site engineer Bill Sprague at 224-315-0201 or you can call Public Works at 630-286-4750 between the hours of 7:00 AM to 3:30 PM. After hours, please call 911 in the event of any emergencies.

Thank you for your cooperation and understanding.

Brendan McLaughlin,
Director of Public Works
